| Great-tailed Grackle | MKTL | Rare | Summer & Fall |
| Baltimore Oriole | CNWR | 1 | June 16-28, 2006 |
| Orchard Oriole | CNWR & MKTL | 1 st State Record | Aug 21-24, 2006; May 2012 |

*Species that have occurred within Idaho, or on the Idaho side of the Snake River (as depicted in DeLorme), between Idaho and Oregon or Washington four or fewer times per year in each of the ten years immediately preceding the most recent revision of the *List of Idaho Review Species*, species that are seasonally or regionally rare, such as neotropical migrants during winter.

** Common Moorhen was split in July of 2011 with Common Gallinule in the New World and Common Moorhen remaining associated with those in the Old World.
